## PROFILE

Passionate developer with a great interest in creating incredible web experiences. Looking for a chance to further advance my skills on a team of developers who I can learn from. Fast-learner and eager to gain experience in the industry. I have specific interest in Wordpress and all its capabilities. Aspiring to be a valuable asset to a development team and create stunning websites.

## WORK EXPERIENCE

### FREELANCE DEVELOPER

RainFire Restoration | Midvale, UT | Feb, 2021 - present

- Work directly with client to make wanted changes & updates to existing Wordpress site
- Attend monthly marketing meetings to prepare for campaigns
- Updated website according to monthly campaigns
- Create landing pages for specific campaigns
- Work to improve SEO of website and its pages
- Install and learn new plugins to improve the site

## PROJECTS

### ENCIRCLE TOGETHER

#### **LBGTQ+ support app made in React Native**

- Working in a team of 3 developers and 1 designer
- Fixing bugs and adding new components to previously made app
- Using Git and Github to collaborate code
- Learning a new framework while improving existing app
- Added new React Native features per client's request

### FINAL SCORE

#### **Score Card app made in Vue**

- Worked closely with 5 other developers
- Used Git and Github to collaborate code
- Created a custom component using Vue and Vuetify
- Presented weekly sprints of work done and work to come
