---

HTML5  
CSS  
SASS  
JavaScript  
Vue  
React  
Bootstrap  
Wordpress  
Git  
Illustrator

## PROFILE

---

Passionate developer with a great interest in creating incredible web experiences. Looking for a chance to further advance my skills on a team of developers who I can learn from. I have worked on several different design and dev teams throughout my career at UVU. I am skilled at team collaboration and time mangament. I love web development because of the constant demand to keep learning and improving.

## WORK EXPERIENCE

---

### TRANSFER AGENT

Estify | 2017 - present

- Use multiple systems to manually transfer data from one system into another
- Analyze details to ensure accurate data is submitted into system
- Follow established customer preferences to report information correctly

Ensure accuracy of data meets all service level agreements and productivity standards

## PROJECTS

---

### FINAL SCORE

Score Card app made in Vue

- Worked in a team of 5 developers
- Used Git and Github to collaborate code
- Created a Qwixx score card using Vue and Vuetify
- Presented weekly sprints of what was completed and what was ahead

### ENCIRCLE TOGETHER - Current Project

LBGTQ+ support app made in React Native

- Working in a team of 3 developers & 1 designer
- Editing and adding to previous team's code
- Using Git and Github to collaborate code
- Learning a new framework while improving existing app
- Adding features like Push Notifications & Intercom
